CHANGE OF COMPANY SECRETARY

The Company would like to advise of the change in Company Secretary from Amanda Wilton-Heald to Elizabeth Hunt, effective immediately.

About Potash West

Potash West (ASX:PWN) is an exploration company focused on developing potassium-rich glauconite deposits in West Australia's Perth Basin. The Company aims to define a substantial resource base and investigate how best to recover phosphate and potash from the mineral. The project is well situated in relation to infrastructure, with close access to rail, power and gas. A successful commercial outcome will allow the Company to become a major contributor to the fertilizer market at a time of heightened demand. The Company has a major land holding over one of the world's largest known glauconite deposits, with exploration licenses and applications covering an area of more than 2,000km². Previous exploration indicates glauconite sediments are widespread for more than 150km along strike and 30km in width.
