MEDIA RELEASE

Potash West Appoints Stellar Securities as an Adviser

Potash West NL (ASX: **PWN**) (“**Potash West**” or “**the Company**”) is pleased to announce that it has appointed Stellar Securities as a Corporate Adviser to the Company.

Stellar Securities is a specialist securities trading and corporate advisory firm based in Western Australia. Its principals have identified Potash West as having exciting prospects and potential for their clients and it is intended that Stellar Securities will assist Potash West with advice on equity market transactions and to facilitate the introduction of the Company to high net worth individual, corporate and institutional investors.

Potash West MD, Patrick McManus said: “We look forward to working with Stellar Securities as we continue to unlock value from the glauconite deposits in the Dandaragan Trough to the north of Perth and work to supply potash to the Australian and international fertiliser market place.”

Nathan Barbarich, MD of Stellar Securities said: “Stellar Securities is very excited to be involved with Potash West NL. To have access to one of the world’s largest glauconite deposits - together with experienced and professional management - is an exciting prospect. But when you combine all of that in what we consider to be a significantly undervalued company in comparison to its North American peers, it becomes an opportunity we could not resist.”

Investors seeking further information are welcome to contact either the Company or Stellar Securities on:

About Potash West

Potash West (ASX:PWN) is an exploration company focused on developing potassium-rich glauconite deposits in West Australia's Perth Basin. The Company aims to define a substantial resource base and investigate how best to recover potash from the mineral. The project is well situated in relation to infrastructure, with close access to rail, power and gas. A successful commercial outcome will allow the Company to become a major contributor to the potash market at a time of heightened demand.

The Company has a major land holding over one of the world's largest known glauconite deposits, with exploration licenses and applications covering an area of 2,905km². Previous exploration indicates glauconite sediments are widespread for more than 150km along strike and 15km in width. Work to date has confirmed the greensands can be beneficiated to extract glauconite and commercial grades of potash produced.

About Stellar Securities

Stellar Securities is a full service investment advisory firm offering boutique investment banking services including securities trading, corporate advisory and capital raising, mergers and acquisitions, research, funds management and private capital investment. Based in Perth, Western Australia, Stellar Securities acts as a corporate adviser to a select group of ASX listed companies where we feel that our expertise combined with our access to capital can assist those companies to reach their full potential. For our retail, corporate and institutional clients this gives them the confidence in knowing that Stellar Securities is at all times intimately involved in the operation and management of many of the investments we recommend.
