Quarterly Report, June 2011

Highlights

- Capital Raising of \$6 Million completed,
- Quotation commenced on ASX 13th May 2011
- First drilling programme completed
- Processing testwork commenced

Dandaragan Trough Project

Exploration

A 7 hole aircore drilling programme was carried out on E 70/3100, for 534 metres. The drill sites were widely spaced along road verges throughout the tenement, over a distance of more than 50 km (reported to ASX 31 May 2011) . Significant thicknesses of potassium bearing material were encountered (Table 1).

Hole	Depth (m)	East (m)	North (m)	Surface Level (m)	Interval (m)	From (m)	To (m)	K ₂ O%

Samples collected from this programme are being analysed to identify:

- Potassium bearing minerals present
- Other economic minerals present.
- Possibilities of physical beneficiation to upgrade the glauconite, prior to chemical treatment

In addition scoping studies on chemical extraction have commenced.

Detailed mapping of the +2,000 sq km tenement holding is in progress, which will allow geological targeting to identify areas with minimum overburden and maximum thickness of glauconite bearing greensands. This work will be completed to allow stratigraphic drilling to commence in September 2011

Metallurgy

Strategic Metallurgy, a group with exceptional experience and track record in process development using hydrometallurgy, has been engaged to evaluate the various processes that exist for potassium extraction.

A wide-ranging literature review has been carried out, identifying several routes that will be tested.

Samples collected from the drilling programme are currently being used to test the efficacy of various reagents in potassium extraction from the host glauconite. Results from this work are expected in August 2011.

Corporate

Potash West was admitted to the official list on the Australian Securities Exchange on May 11th 2011, after raising \$6 Million. Quotation commenced on May 13th. The Company has 75 million shares on issue, of which 32.6 M (43.5%) are escrowed.

Cash on Hand

At 30 June 2011 \$5.432 million cash (7.2 cents/share) was available.

Competent Person's Statement:

The information in this report is based on information compiled by Lindsay Cahill, who is a Member of the Australasian Institute of Mining and Metallurgy and the Australian Institute of Geoscientists. Mr Cahill has sufficient experience relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2004 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Cahill is a consultant to the mining industry. This report is issued with Mr Cahill's consent as to the form and context in which the exploration results appear.

Notes

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 1022: Accounting for Extractive Industries* and *AASB 1026: Statement of Cash Flows* apply to this report.
- 5 **Accounting Standards** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
